

# LOVING HOMES NEEDED

Female pure bred American Staffordshire Terrier, 5 years old, fawn and white. She's a very loving dog with people and will be the best friend you could have. She does have aggression issues towards meeting new dogs so will need an experienced, patient owner to work with her. She has lots of energy so will need an owner that has a big yard for her to run or someone who is very active and will give her all the exercise she needs. She would do best as the only pet in the home. She's good with children.

Four year old American Bulldog/Bullmastiff cross. Dozer is a big gentle giant. He loves attention and other dogs. He's very easy going and just loves to be around people and get affection. Dozer will fit in well with any family and just needs someone to love him. He does forget how big he is sometimes and figures he should be a lap dog.

If anyone is interested in these loving dogs, please contact Lee or Michele at:
